5. Analysis of Financial Results

In this chapter, we analyze the consolidated operating results and consolidated financial position. Numerical figures are quoted from "8. Supplementary information" of this report.

(1) Overview of consolidated operating results

The economic situation in the first half of the year under review is at a standstill in some areas but gradually picking up. Looking ahead,

a gradual recovery is expected to continue under the improving employment, income environment and the impact of the various policies. But the downward swing of foreign economy like high interest rate in Europe and the USA or continuing to be at a standstill of real estate market in China is a risk for downtrend of domestic economy. And also we need to pay close attention to the effects of rising prices, Middle East situation and fluctuations in financial and capital markets, in addition to the downside risks of overseas economies.

Under such circumstances, based on the medium-term management plan "Forward 25" that started in the fiscal year 2023, the Group has been promoting various key measures with the basic policies; sustainable growth of existing businesses, creation and expansion of growth businesses and promotion of sustainable management (enhancement of corporate value).

As a result of the above efforts, for the six months ended September 30, 2024, Order intake was Yen 284.8 billion, decreased by 17.9% from the same period in the last fiscal year mainly due to a decrease in Environment Business and Carbon Neutral Solution Business. Net sales were Yen 269.9 billion, increased by 16.3% from the same period in the previous fiscal year mainly due to an increase in Environment Business.

In terms of profit and loss, Operating income was Yen 3.1 billion, increased by 183.4% from the same period of the previous year, mainly due to the improve of in Environment Business, whereas Operating income was Yen 1.1 billion in the same period in the last fiscal year.

Operating income was increased. But Ordinary income was decreased to Yen 0.6 billion, due to foreign exchange losses and equity losses of affiliated companies.

Accordingly, net loss attributable to shareholders of Kanadevia turned to the red, Yen 1.1 billion, whereas net income attributable to shareholders of Kanadevia was Yen 0.3 billion in the same period in the last fiscal year.

Business results by segments are as follows.

Environmental Business:

Net sales increased by 17.9% to Yen 199.5 billion due to the net sales increase of foreign affiliated companies. Operating income was Yen 5.5 billion, whereas Operating income was Yen 0.5 billion in the same period in the last fiscal year.

Machinery & Infrastructure Business:

Net sales decreased by 15.0% to Yen 34.7 billion. Operating loss turned to red Yen 1.3 billion from the same period in the last fiscal year mainly due to worse earnings of infrastructure.

Carbon Neutral Solution Business:

Net sales increased by 60.9% to Yen 33.9 billion due mainly to an increase of wind power generation instruments and process instruments. Operating loss increased by 391.0% Yen 0.3 billion to Yen 1.3 billion from the same period a year earlier mainly due to worse earnings of carbon neutral solution.

Other Businesses:

Net sales increased to Yen 1.8 billion and Operating income increased to Yen 0.2 billion.

Due to the nature of the Group's business, a large proportion of projects is completed at the end of March, fiscal year closing month, and therefore sales are concentrated at the end of the consolidated fiscal year. Thus, there is a tendency that the Company's operating results experience the seasonal fluctuation.

(2) Overview of consolidated financial position

Assets, Liabilities and Net assets

Total assets decreased by Yen 50.3 billion to Yen 483.2 billion from the previous fiscal year-end mainly due to the decrease of notes, accounts receivables and contract assets by collection of trade receivables. Total liabilities decreased by Yen 48.4 billion to Yen 316.1 billion from the previous fiscal year-end owing to repayment of Notes, Accounts payable and Accrued expenses. Net assets decreased by Yen 1.9 billion to Yen 167.1 billion from the last fiscal year-end due to the dividend payment and net loss attributable to the parent company.

(3) Forecast of consolidated earnings

As for the fiscal year ending March 31, 2025, Net sales in Environmental Business are expected to increase in the current financial year. The impact of Notice of Inappropriate Conduct in the Marine Engine Business released on 5th July on the financial results is currently under review. If any impact is anticipated based on further investigation results, the Company will immediately make an announcement.

(Notes)

Net sales is expected to increase from that released on Oct. 23, 2024 due to an increase of net sales in Environment Business Segment in the current fiscal year. The impact of Notice of Inappropriate Conduct in the Marine Engine Business released on 5th July on the financial results is currently under review. If any impact is anticipated based on further investigation results, the Company will immediately make an announcement.
